### PROFILE

Experienced Software Engineer with 4+ years of expertise in HTML, CSS, JavaScript, WordPress, and React.js, specializing in website development. Proven track record of delivering innovative solutions while enhancing performance and user experience. Seeking to contribute my skills to a forward-thinking company that fosters professional growth and leadership opportunities.

### WORK EXPERIENCE

#### Rainbow Inks Pvt Ltd

2023-PRESENT

##### WordPress Developer

- Customize, manage, and maintain the functionality of WordPress websites. Ensure high performance and availability, managing all technical aspects of the CMS.
- Perform regular tests on websites to ensure functionality, identify any technical problems, and rectify them.
- Work with content teams to ensure a seamless integration of content with the website's design.
- Monitor the performance of live websites, analyze traffic, and optimize for speed and scalability.

#### Alpha IT Agency

2021-2023

##### Website Developer

- Design, develop, and maintain responsive websites using HTML, CSS, and JavaScript.
- Customize WordPress websites, themes, and plugins to meet client requirements.
- Collaborate with the design and backend teams to implement user interfaces and interactive features.
- Perform testing and debugging to ensure websites are functional and responsive across various devices.
- Manage projects from concept through to completion, meeting deadlines and maintaining a high standard of quality.

#### Gamicacloud

2020-2021

##### React Developer Internship

- Design and implement responsive web applications using React JS, Redux, and other front-end technologies.
- Write reusable, testable, and efficient code using HTML, CSS, JavaScript, and React libraries.
- Collaborate with UI/UX designers to transform visual mockups into responsive web designs.
- Manage application state with Redux for consistent and scalable performance.
